

Dear Parents/carers and Year 3 children:

Our Learning Challenge question is history based. We are learning about early man in Britain.

As Scientists we will:

be finding out about forces and magnets. We will compare how things move on different surfaces. We will also observe how magnets attract or repel some materials. We will then sort these materials based on our observations.

As Believers we will:

continue to explore another world faith. That faith will be Islam.

As Authors we will:

be turning a familiar fairy tale into a play script. We will also be writing our own poetry based on the senses.

Would you step back into the ages?

As Artists we will:

be exploring and learning how to create prints with string.

As Historians we will:

discover why Stonehenge was built. Name some of the roles druids did within Iron Age tribes. Explain how homes changed from the Stone Age to the Iron Age.

As Citizens we will:

be exploring tolerance of others faiths and beliefs.

As Readers we will:

continue to discuss our love of reading, as well as develop our deduction and inference skills. We will be reading a Roald Dahl book this term.
