

Where is
the Force
with
You?

In Design and
Technology, we will:
Research, design and
make our own
Christmas
confectionary.

As talkers we;
Will be prepared
to discuss and
debate issues and
listen to the
opinions of
others.

As scientists we will explore:

LC 1: What are balanced and unbalanced forces?

LC 2: What is friction and how is it helpful to my life?

LC 3: What should Jamie Bond do?

LC 4: Can I identify air resistance acting on an object?

LC 5: What is water resistance and can I explore the effects of it?

As thinkers we will:

Learn strategies to help us deal with conflict and resolve arguments. We will discuss the meaning of the words and think of how we have dealt with situations in the past. We will reflect on these and consider alternative ways to approach problems in the future.

As historians we will:

research the ancient Egyptians and consider how they helped shape the world with their inventions.

As readers we will:

Investigate Cloud Busting: a recount poetry text by Malorie Blackman.

We will learn how to refer to the text to support our opinions and predictions.

As citizens we will:

Explore the theme of compassion through our P4C lessons.

As writers we will explore:

Descriptive writing, character descriptions.

Recount writing in the form of a diary entry.

This is our topic for this half term. Please use the information to aid your own research and learning.
