

## Geography Vocabulary: Summer 2

### **Year 1**

|             |           |           |              |
|-------------|-----------|-----------|--------------|
| local       | field     | rural     | surroundings |
| observation | landscape | man made  | map          |
| natural     | buildings | direction | symbols      |

### **Year 2**

|         |             |           |            |
|---------|-------------|-----------|------------|
| symbols | left        | route     | compass    |
| near    | right       | landmarks | directions |
| far     | observation | key       | location   |

### **Year 3**

|        |          |                 |               |
|--------|----------|-----------------|---------------|
| crust  | eruption | Tectonic plates | Ring of Fire  |
| mantle | volcano  | active          | earthquake    |
| core   | magma    | dormant         | shockwave     |
| Earth  | lava     | extinct         | Richter scale |

### **Year 4**

|               |               |                 |            |
|---------------|---------------|-----------------|------------|
| precipitation | mountains     | estuary         | landslide  |
| condensation  | sketch maps   | water pollution | peak       |
| evaporation   | transpiration | runoff          | escarpment |
| water vapour  | abrasion      | absorption      | saturation |

### **Year 5**

|            |             |             |                 |
|------------|-------------|-------------|-----------------|
| luster     | igneous     | weathering  | oxides          |
| cleavage   | metamorphic | Silicate    | Native elements |
| phosphates | sedimentary | mineraloids | carbonates      |
| mineral    | geology     | sulfides    | formation       |
| sulfates   | chemical    | elements    | geologist       |

### **Year 6**

|                |                        |                          |                       |
|----------------|------------------------|--------------------------|-----------------------|
| location       | typography             | physical characteristics | environmental regions |
| compass        | observation            | satellite image          | overseas              |
| grid reference | sedimentary            | commercial development   | direction             |
| symbols        | topographical features | digital analysis         | locate                |
| grid square    | human characteristics  | OS maps                  | mapping tools         |
