Our Food Statement

At Bishop King we aim to create a culture and ethos of healthy eating and aiming to ensure that all aspects of food and drink in school promotes the health and wellbeing of our children.

The school recognises the role that healthy food plays in our children achieving their learning potential.

The school dining hall offers a safe and social environment for children to enjoy their food.

Our children have the opportunity to have a choice of a hot meal and vegetarian option or a cold choice on a daily basis with water being available to drink at all times.

Our own school kitchen provides healthy, nutritious, tasty food and the menus are in line with the school food standards. We also follow Natasha's law with allergens where parents order on a weekly basis online through Wisepay.

The dining hall is fully supervised and staff are offered the chance to have a meal with the children, to sit and eat with their class.

Our catering team is experienced in making adjustments to menus where children have special dietary requirements or cultural needs.

We have regular theme days across the school year to encourage more children to take up our lunches.

We use a local butcher in Lincoln and where possible try to keep our produce local. In school all year groups regularly do cooking in the classrooms and enjoy planting outside.
