Green denotes an increase on the previous year

Year Six: Expected Standard percentages show a two-year improving trend in reading, writing, mathematics and combined. Writing has improved significantly and is now in-line with the Grammar test outcomes.

The number of children achieving at Greater Depth has improved in English but not in mathematics

Areas to be included in our School Development Plan priorities 2019/20:

- Increase number of children achieving the Expected Standard in reading and mathematics so that the combined percentage improves and is closer to national
- Continue to provide focussed support to children who are not on track to make expected progress by the end of KS2
